IS SIROLIMUS EMERGING AS A POTENTIAL FUTURE TREATMENT STRATEGY IN PAD OVER PACLITAXEL?

Partially supported by Concept Medical

Agenda

- Overcoming paclitaxel with sirolimus in PAD
Konstantinos Katsanos, Greece
- Live case transmission from Sengkang General Hospital, Singapore
Edward Choke, Singapore
- Why Sirolimus Coated Balloons are a Better Option
for PAD and AVF Interventions
Alope Finn, USA
- Assessing Unmet Needs in Lower Extremity interventions:
Sirolimus Eluting Technologies
Sahil Parikh, USA
- Discussion and Conclusion

ABSTRACTS

LIVE

Friday, 29 January 2021
Room 1 | Main Arena 1

8:40 – 8:45 CET

XTOSI 12 month results: Xtreme Touch-Neo (MagicTouch PTA) Sirolimus coated balloon for peripheral arterial disease.

Edward Choke,
Singapore

ABSTRACTS

LIVE

Friday, 29 January 2021
Room 1 | Main Arena 1

15:10 – 15:15 CET

1 year results from the MAgicTouch Intervention leap for dialysis access – the MATILDA trial

Tang Tjun Yip,
Singapore
